

Ralph Thomas Renne, CFM, CIPM
Sr. Director, Workplace Resources,
Real Estate, Safety and Security - Americas

Ralph Renne leads NetApp's workplace transformation initiative in preparation of the company's Return to Office. He is a member of the Crisis Management Team coordinating the pandemic response and risk mitigation supporting on-going essential operations as part of his Business Continuity and Disaster Recovery responsibilities. He manages NetApp's real estate portfolio of 2.1 million square feet with over 6,000 employees in the Americas. He has an extensive background in facilities operations, engineering and construction of corporate campus' and data centers, including real estate land acquisition, entitlements, and development. However, his primary responsibility is to develop the talent within his team and build a World-Class organization. He has worked for NetApp for almost 14 years.

Ralph Renne was previously the Director of Facilities for Exar Corporation – a semiconductor company and worked for the Experimental Facilities Department at the Stanford Linear Accelerator Center – a High Energy Physics Laboratory.
